MARINE CORPS INSTALLATIONS NATIONAL CAPITAL REGION BASE BULLETIN 5090

From: Commander, Marine Corps Installations National Capital Region-
Marine Corps Base Quantico

To: Distribution List

Subj: MARINE CORPS INSTALLATIONS NATIONAL CAPITAL REGION-MARINE CORPS
BASE QUANTICO RESTRICTED ACCESS TO LUNGA PARK AND RECREATION AREA

Ref: (a) MCO P5090.2A
(b) 50 U.S.C. 797

Encl: (1) Lunga Park and Recreation Area Restricted Access Maps

1. Situation. Access into the Lunga Park and Recreation Area is restricted due to the presence of unexploded military munitions. This Marine Corps Installations National Capital Region-Marine Corps Base Quantico (MCINCR-MCBQ) Bulletin provides guidance and instructions to all personnel aboard the installation concerning these restrictions.

2. Mission. The Commander, MCINCR-MCBQ via Natural Resources and Environmental Affairs Branch, Naval Facilities Engineering Command, Safety Division, Explosive Ordnance Disposal, Marine Corps Systems Command (MARCORSYSCOM), State Environmental Agencies, and the Federal Environmental Protection Agency, has initiated an Environmental Restoration Project, under the Military Munitions Response Program (MMRP), in order to remediate the property associated with the Lunga Park and Recreation Area.

3. Execution

a. Commander's Intent and Concept of Operations

(1) Commander's Intent. MCINCR-MCBQ is to preserve the health and welfare of the general public and base personnel while restoring the Lunga Park and Recreation Area as a viable recreation asset.

(2) Concept of Operations. Until further notice, access to Lunga Park and Recreation Area is prohibited for anyone not authorized by the Commander, MCINCR-MCBQ. Entry into this area by

Distribution Statement A: Approved for public release; distribution is unlimited.

unauthorized personnel is a significant safety and health risk and would disrupt Unexploded Ordnance (UXO) removal activities.

(a) The land use restrictions are categorized into the following four categories:

1. Safety Perimeter. This outer boundary is established to preserve proper stand-off distance. The perimeter is indicated as a green line on the map at enclosure (1) and will be physically marked by fencing and signage. Only those individuals directly working within the installation's restoration project and those authorized by the Commander, MCINCR-MCBQ are permitted beyond this point.

2. Ground Remediation Operable Units (OU-27, OU-35, OU-36). These boundaries are established to provide systematic clean-up zones to the MMRP personnel for surface lands, allowing for the prioritization of the remediation planning. Indicated by the orange lines at enclosure (1), these zones are representative of areas located around and within the Lunga Park and Recreation Area. As the clean-up is accomplished, the determination to re-open specific areas will be based on the Commander, MCINCR-MCBQ decision, clean-up actions in other areas, and in conjunction with MARCORSSYSCOM.

3. Water Remediation Zone. This boundary is established to provide clean-up requirements of submerged lands within the Lunga Reservoir to the MMRP personnel. Indicated by the red hatched area at enclosure (1), this zone is representative of land below the water line of the reservoir itself. As the clean-up is accomplished, the determination to re-open specific areas will be based on the Commander's decision, clean-up actions in other areas, and in conjunction with MARCORSSYSCOM.

4. Lunga Reservoir Active Range Area. This boundary is a pre-existing land use restriction for those areas of the Lunga Reservoir within active military ranges. These water zones are indicated by combined blue and green lines at enclosure (1), and are currently managed by Range Management Branch (G-3).

(b) UXO investigation/removal contractors, authorized by the MCBQ Base Explosives Safety Officer, are permitted full access to this area for work-related purposes only. Government Program Managers responsible for oversight of the MMRP may coordinate access through the UXO investigation/removal contractor. However, they must be escorted by a representative of the UXO investigation/removal contractor at all times.

(c) Limited use of the roads through Lunga Park and Recreation Area may be permitted for military training purposes, use of the area by Marine Corps Community Services (MCCS), and other official government business. These actions must be approved by the Commander, MCINCR-MCBQ. Coordination may be accomplished by contacting the MCINCR-MCBQ Base Explosives Safety Officer, at (703) 432-1092. If approved, these operations are limited to road use that will not conflict with UXO removal operations.

(d) The MCBQ Base Explosives Safety Officer, available at (703) 432-0521, will coordinate with Range Management Branch (G-3), Natural Resources and Environmental Affairs Branch (GF), and the UXO investigation/removal contractor concerning all access requests. Access will be granted in writing by the Commander, MCINCR-MCBQ. The grantee must have his/her approval letter in possession at all times while inside the safety perimeter. MCCS customers with private property stored in the RV Storage Area may access their property during approved times scheduled in writing by MCCS and the Base Explosives Safety Officer. MCCS shall provide escort to the RV Storage Area during these approved times and will ensure customers do not enter other restricted areas.

(e) Periodic checks of this area by base law enforcement personnel may be conducted, with prior coordination and approval by the MCINCR-MCBQ Base Explosives Safety Officer.

(f) Failure to comply with the requirements of this bulletin will be considered as trespassing into a restricted area and violators will be subject to appropriate disciplinary and/or enforcement action under 50 U.S.C. 797 or the Uniform Code of Military Justice, as applicable.

4. Administration and Logistics. None.

5. Command and Signals

a. Command. This bulletin is applicable to all personnel aboard MCINCR-MCBQ. Please contact the Provost Marshal Office, at (703)784-2252, to report any observed violations of this bulletin.

b. Signal. All land use restrictions are effective the date signed.
