

## **Lockout/Tagout**

### **Purpose:**

To promulgate instructions and provide guidelines, practices and procedures necessary to disable machinery or equipment and prevent release of potentially hazardous energy while maintenance and servicing activities are being performed aboard Marine Corps Base, Quantico (MCBO P5100.1C, Chapter 10).

### **General Information:**

Lockout/Tagout is part of a complete energy control program designed to provide employees with guidelines on how to recognize and control hazardous energy sources. Lockout, not tagout, is the preferred method for energy control. Workplace supervisor shall ensure energy control procedures are developed and maintained and ensure that all military and civilian personnel understand established LO/TO procedures.
