

Unit Safety Representative (USR) Program

Program Summary:

The USR program Manager is responsible for the establishment and maintenance of an active USR program which is critical to effective mishap prevention.

USR's will be critical to effective mishap prevention. USR's will be appointed and trained to be knowledgeable and active in the main areas of Hazard Recognition, Hazard Abatement Procedures, and Mishap Investigation, reporting and recording.

Training Requirements:

The newly appointed USR's are required to receive training conducted by Safety Division within 30 days of being appointed by the employing organization.

Collateral Duty Safety and primary USR's must also attend the 80-hour Ground Safety for Marines course and remain in the billet for one year after completion. Additional training courses are available through the Navy Safety Center and The National Resource Center for OSHA training. Information on these courses can be found on the Navy Safety Center web site and the OSHA Training Center.

Personnel with questions on the USR Program should contact the Program Manager.
