

Yellow-Green-Black Belt Resources

The following pages have Lean Six Sigma Yellow, Green, and Black Belt resources and links that you may find helpful. While we have included a few resources, there are many more industry recognized training resources that are available.

Green Belt Certification Requirements

- Complete USMC Green Belt course or comparable training through a university (e.g. Naval Post Graduate), federal agency, or professional provider.
- Lead a Project, an Event, or provide significant support of Black Belt Project.
- Project/Event to fulfill certification requirements
 - A Black Belt Mentor (P&I approved) :
 - Approves LSS Project/ or Rapid Improvement Event
 - Black Belt mentors Green Belt during the project/event
 - Black Belt provides P&I with recommendation for certification
 - Demonstrated use of Lean Six Sigma Tools
 - Black Belt determines tools based on project/event
 - Required tools-all projects/events
 - Project/Event Charter (BB Mentor signed)
 - Process/Value Stream Map
 - Final Tollgate

Lean Six Sigma Resources

- Green Belt Course Training Material
- Templates
 - P&I External Site
(<http://www.quantico.marines.mil/Offices-Staff/Performance-Innovation/>)
 - Useful templates uploaded as requested.

Yellow-Green-Black Belt Resources

- Lean Six Sigma Open Source E-Training
- BMGI has several no cost E-training courses as open source. The no-cost training does not provide training certificates. However, their open source material is very good.

Black Belt Professional Development

- Lean Six Sigma Black Belt courses such as those by Villanova, MoreSteam, or ASQ are industry recognized.
- Black Belts lead a Lean Six Sigma Project demonstrating DMAIC methodology competencies.
- Mentoring resources for Black Belts may be arranged through P&I.
