
Subject:

FW: FY 21 DTS Maintenance Release 2

Subject: FY 21 DTS Maintenance Release 2

Good morning ODTAs,

FY21 Maintenance Release 2 will be deployed to EWTS on Thursday, January 21. The DTS release pilot is scheduled for January 25 with the full deployment scheduled for February 5. There will be no downtime associated with this release and the SPR contents are attached.

One of the biggest changes is we will no longer have the ability to delete profiles, so that amplifies the need for you to ensure you have the correct SSN if you create profiles for your travelers. If you run into issues and need a profile deleted, you will have to send a request through our office that will be forwarded up so the removal can occur.

As always, if you have any questions please contact the helpdesk.

R/S,

John Kenney
