
Subject: FW: New Mileage Rates and ILPP

Subject: New Mileage Rates and ILPP

Good morning ODTAs,

DTMO stated that the new mileage rates should be loaded in DTS by 1 January. Remember, if authorizations were created prior to 1 January and had mileage, those expenses will need to be removed and readded in the voucher in order to reflect the current rate of 56 cents/mile. Otherwise the travelers will be overpaid since the rate was reduced for 2021. Please pass that along to your AOs, ROs, and travelers.

The ILPP will become permanent (no longer a pilot) if the current 2021 NDAA veto is overridden.

R/S,

John Kenney
