**Subject:** RE: Mileage Rates

Good morning ODTAs,

I just checked DTS and the mileage rates for 2021 have now been loaded into DTS. Please make sure that any authorizations created using the old rate in 2021 are updated either on the authorization or on the voucher if travel has already begun. The expense must be removed then added back in order for the correct mileage rate to be used.

R/S,  
John

**Subject:** Mileage Rates

Good morning ODTAs,

We received a question asking if the rate updates were delayed, so we just checked it ourselves and confirmed the mileage rates have not been updated yet. I've sent up a request for information and I'll let you all know what I find out.

Thanks,  
John
