Remarks					
1. Surface conditions consist of loose dirt and grass up to 0.6 m (2.0 ft) tall throughout the LZ.					
2. Large trees line the entire perimeter of the LZ.					
3. The LZ center is fairly level, however approximately 30.5 m (100.0 ft) out from LZ center in all directions the ground starts to slope downward causing a plateau affect.					
4. Facility planners should coordinate with local command to determine utilization of LZ and size and/or improve LZ surface appropriately.
