

Counter Intelligence (CI) Briefing

All DoD personnel must attend, once every **calendar** year, briefings on all threats posed by foreign intelligence and terrorist organizations. These briefings will be presented by an authorized NCIS Agent. Online training is allowed for CY23, and can be accessed via MarineNet and TWMS.

For in-person training ensure all personnel bring their CAC to be scanned, or your attendance will not be recorded.

MCINCR/MCB Quantico Security Office is responsible for scheduling, notifying, and recording attendance for all CI Briefs. If you are a part of a separate command ensure your command security manager and training officer is notified of your attendance or is given a copy of your certificate (if completed online).
